

Materials Management Group, Inc.

March 31, 2020

To all respected MMG Clients,

As environmental professionals and members of this community, we believe it is best to act out of an abundance of caution in order to protect the health of those most vulnerable. Our utmost priority is the safety and health of our clients, our employees, and the general public. Therefore, in deference to the ongoing COVID-19 pandemic, MMG is working remotely whenever possible. However, we currently have health and safety supplies necessary to conduct most fieldwork, site walks, field consultations, and project oversight as needed during this time.

Additionally, MMG's Project Managers and Environmental Health Scientists are available to answer any questions or concerns from Clients during normal business hours. Our business is primarily environmental; however, all of our Scientists have advanced public health degrees as well as considerable experience in the public health field.

MMG is committed to serving the Greater New Orleans area during this difficult time. We are following all CDC guidelines, practicing social distancing, and wearing protective equipment as appropriate in our work. Please do not hesitate to reach out to us with any questions or concerns, regarding our work or otherwise.

Sincerely,

A handwritten signature in black ink, appearing to read 'C. Paul Lo', written in a cursive style.

**C. Paul Lo, ScD**

President & Senior Environmental Health Scientist  
Materials Management Group, Inc.
